

Welcome to Around the World 5-7 with Learn Laugh Play

When joining this class, it would be useful to create the passport and world map.

For the world map, you will need to label the continents and oceans. Do so either by writing in the boxes or cutting and sticking the labels. We then colour in the country that we are working on and write the name of this country.

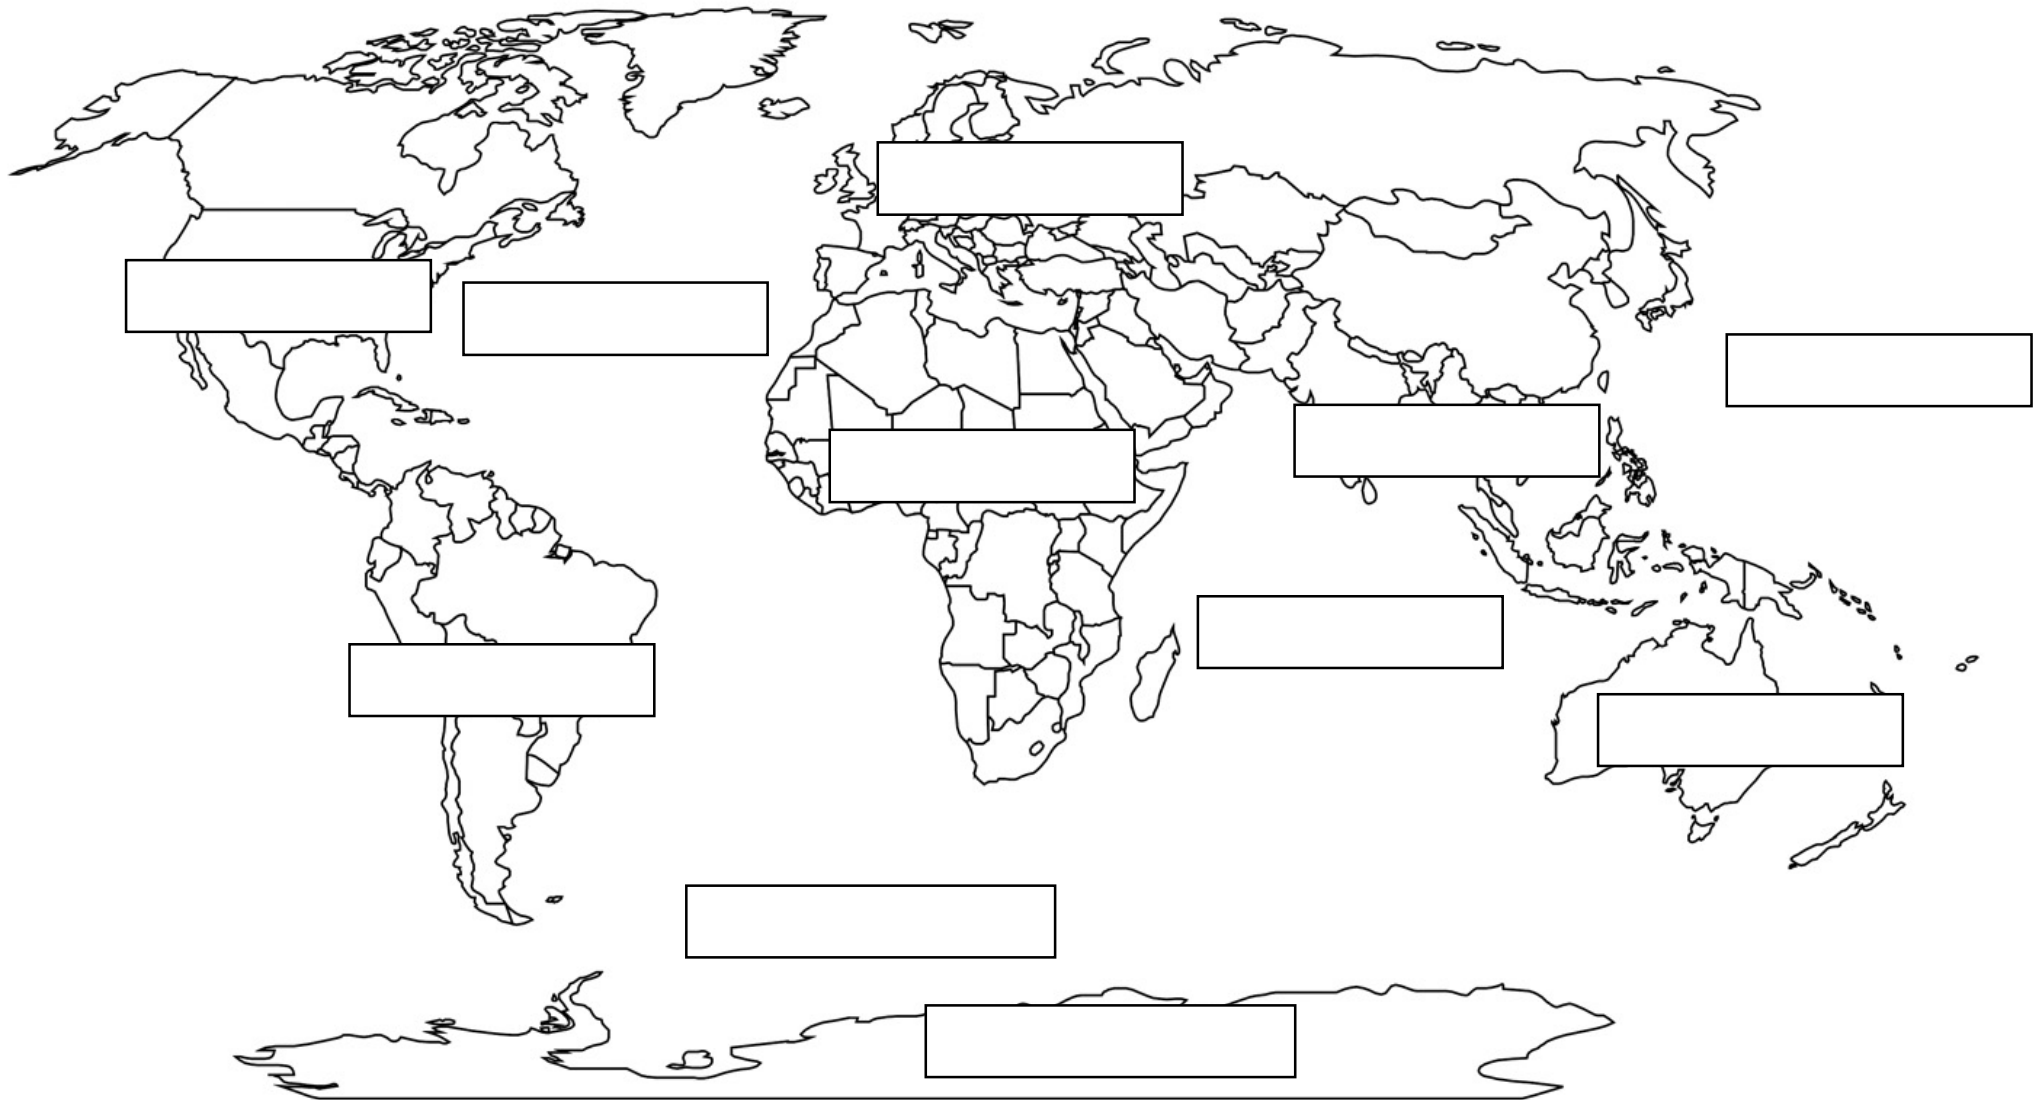

For the passport, you will need to fold the paper to create your passport and then fill in the first page. This is your name, birthday and then in the first box, draw a picture of yourself. Next you will need to draw a picture of your 'travelling companion' (a toy that is going to travel with us in our lessons) and the toy's name.

After that, fill in the name of the country you live in and draw the flag for that country. Finally, fill in the capital city and main language of the country you live in.

I would recommend adding the extra pages into your passport. To do so, print the additional inside pages and fold these. You will then need to place them in inside the first sheet and staple them in place.

Please ask if you have any questions.

My Map of the World

Labels

Continents: Africa, Antarctica, Asia, Europe, North America, Oceania, South America

Oceans: Arctic Ocean, Atlantic Ocean, Indian Ocean, Pacific Ocean, Southern Ocean
